

“A critical look at geoengineering against climate change” with David Keith

Please **watch** the following TED Talk:

https://www.ted.com/talks/david_keith_s_surprising_ideas_on_climate_change?language=en

Write in your journals:

Key concepts, and thoughts on both the content and delivery of the speech (what did you like? What didn't you like?)

Note: There are two tools I use when I watch TED talks that you may find useful: you can turn on subtitles, and there is also a transcript available for most talks.
